Thucidides

Haec propositio quae ut vides simplex est, facile demonstrabitur si eam tantum revoces ad distributionem plurimarum rerum quibus praesunt divitiae. Per opes enim adeo illustratur nobilitas ut si pauper sit omni destituta splendore vilis iacet et despecta. Amicos tot quot volumus, uxorem pulchram et divitem, [illegible] pecunia, et quidquid magis exoptamus rerum nobis tribuet copia. Si recitas versus [illegible] qualis [illegible] Poetae numero ipse tibi cedit Claudianus etc. si declamas Orator ipso etiam Tullio tua est facundia [illegible]. [illegible] aurum ut canit [illegible] per medios ire satellites et perrumpere saxa ipsa potentius ictu fulmineo [illegible] … esse [illegible] … sine quo [illegible] et principes nisi infauste sua gererent bella. Pecunia [illegible]

enim carentes quo militibus, et unde stipendia solveret.

Cum autem in propositione a testimonio ostendas habes Petronij carmen Quod vis nummis praesentibus opta Et veniet clausum possidet arca Jovem. Claudes Argumentum et demonstrationem celebri illo disticho. Est Pecunia Regina pecunia [illegible] Infelix qui caret huius ope. Per haec et similia demonstrata remanebit propositio, et sententia Thucydidis in titulo posita.

## Elegia.

Hæc breviter conscripta ferunt mea verba saluto
Quam nihil est maius quod dare possit amans
Vestra attribuant cœli tibi numina vitam
Et signet faustas candida gemma dies
Sint desideria hæc et sincerissima vota
In medio affectus progenerata sinu.
Diligo te plus quam Pilades dilexit Oresten
Diligo te plus quam meque oculosque meos
Tu quoque ni mea me mentis sententia fallit
Tu quoque nos puro corde sodalis amas.
Quid tamen hæc animi prodest concordia quando
Te procul et vultus nostri utriusque manet.
Præsentis vultu vellem te cernere frater
Frater quo nunquam carior alter erit

Te

Te per amoena tuae recreant Solatia Villae
Insequeris canibus lata per arua feras
Non tonet incassum Sclopus sed quolibet ictu
Aut sternat leporem, aut iaculetur aues
Non equidem inuideo faueat tibi Virgo Diana
In laqueos cadat praeda petita tuos.
[illegible] quodcumque placet tibi [illegible]
Felicias felix sors tua [illegible] Dei.
Pace [illegible] habeas non inuideas [illegible] repugno
Qua magis arrident Gaudia Ruris tibi
Sed gaudere potes [illegible] [illegible]
[illegible] me tristem quando dolere uides
Tu liber percurris agros et Rure Vagaris
Clausus ego in [illegible] moenibus Urbe moror
Tu recreas gustum Triuia comitante per arua

Unda rigat tellus et Ventis sibilat Aer
Et de nocte [illegible] prata pruina tegit
Subtectis imbribus [illegible] glaciales [illegible] pendet
Fontibus ingressis ecce gelantur aquæ
Omnibus in rebus mutatio facta creatis
Est alius Mundus [illegible]

Omnes

Omnes te videre nos praestolimur amici
  Absentemque diu, te Schola nostra manet.
Quid agis? qua lenta gradu molimina sustines?
  Num circum stringit dura catena pedes?
Rumpe moras, charisque tuis te redde Magistris,
  Atque tua mox iterum Sacra licea cane
Ex tam sit tibi docta manus, et brachia Pallas
  Pallas ad amplexus te vocat alma suos.
Nam aliquid melius toto resplendet Olimpo?
  Terra aliquid totus universus Orbis habet?
Quae fuit illius si forte requiris, Origo
  Dicitur e cerebro nata fuisse Jovis
Haec disciplinis mentes animosque decorat
  Virtutis reserat, qua gradiamur, iter.
Haec ignorantiae tenebras a mente revellit
  Imbuitque sua cognitione deo!
Omnia demonstrat naturae Arcana latentis
  Atque ignoratae docent esse nihil
Quod natat in Pelago, volucre quod in aere pendet
  Quod generat tellus et quod igne calet

Quod

Quod viret in Prato, quod pendet in Arbore silva
Quod fluit in limpha, vel quod in axe micat.
Artibus illa suis haec notis omnia dicta
Aspicit utrisque erudiendo suis
Talia super ego de nostro Numine Poetae
Recantasse audivi plus Cicerone virum.
Ergo quid hanc parvi ducis, quid negliges artes
Quas homini invenit quas Dea tanta docet?
Nobilis est animus studiisque aptissima [illegible]
[illegible] tibi mens vires ingeniumque capax.
Quid male te perdis? quid tempus inutile transis.
An tibi, quae veniant non mala damna vides?
Eia mihi ausculta, (nec me praesumere dicas.
Ipse Deus dictat, quae tibi verba loquor.)
Eia facias moneo, quod praebet Amicus Amico
Atque consilium illo nec illud erit.
Si me audentem [illegible] quid te [illegible]
[illegible] curas inter habere [illegible]
Piscare ignavus nec [illegible] inglorius esse
Et sine doctrinis usque manere rudis.

Epigrama

Preteriere dies sacrati a Ventre sico
  Quos unguens pinguis fecerat esca dies
Indixit Mater nobis Ecclesia tempus
  Tempus, quo nullum sanctius esse potest.
Non lances onerant perdix, Petasoque lepusque
  Delectat Stomachum, nec Vitulina caro
Massica de Cyatis non dulcia Vina bibuntur,
  Nec nostri titubant ebrietate pedes.
Non licet hoc mensas epulis onerare superbis
  Nec licet hoc dulces evacuare sinhos
Nunc implet guttur, delinit Sarda Palatum

Quo magis extenuant nostrum Ieiunia Corpus

#### Mopsus.

Opportunus ades, quo non mihi carior alter
Cui cedet in vultu risus, cui gaudia fundit
Frons vaga, quae reddit iucundum plena voluptas.
Huc ades o Meliboee meum demulce timorem?
Quo mens acta tremit, quo cor et pectus inhorret.
Et vero vidisti? quaenam e latere valerent
Quae coelo, et terris hodierna luce, fuere
Insolitis patefacta modis. Seu quando recursant
Deficiunt sensus, animusque pavore rigescit
Expallet facies, et verba in faucibus haerent.
Sol proprios perdit radios, vultumque tenebris
Involvens tetra replet caligine. Huc hu?

Lausus ut ego adnexi reduces ad lumina vitae
Attonitus mansi, vitam nec habere videbar.
Quisquis enim tanti generosi pectoris esset
Ut Monstra haec cernens non quovis osse paveret?
Vultne Deus Mundo rebusque imponere finem?
Regna de tantis fient praesagia monstris?
Huc ades, et dubium leni, Meliboee, timore.

An precor ut taceas: quae suggeris omnia vidi,
Neque nihil formido minus, sed forsitan illud
Ignoras quod causa fuit, quod tristis origo
Unde haec acciderint magni Portenta timoris.

Hic igitur, qui purus erat sine crimine Vitae
Cuius ad Imperium [illegible] [illegible], et [illegible]
Et se subdebant, tellusque et Pontus et Aer
Qui bona transiit faciens, quo nullus in Orbe
Sanctior extiterat, non ut debebat, amatur.
Sed dente inuidiae impetitur Iudaea Propago
Pessima, Pontifices Scribae liuore furentes

Pulsibus

Affigunt manus clavis lacerantibus ambas
Cum pedibus dextras tolluntque in Vertice Montis
Inter Latrones talis velut ipse fuisset

[illegible] qui dignus erat longaevi temporis annos
Ducere conclusit paulo post lumina Vitae

Maria Magdalena stans ad Monumentum Domini eumque sublatum putans lacrymatur et dolet.

Epigramma

Christus ubi Vitam divino efflarat ab Ore
Hunc de ferali deposuere Cruce.
Marmorea Joseph tactus pietatis amore
Exanimum Corpus contumulavit humo
Magdala cum reliquis properat visura sepulchrum
Sed busta accedens esse adaperta videt
Nescia quod Dominus Mundique hominumque Redemptor
E tumulo ad Vitam se revocarit ovans.
Perquatit et vicibus iam pluribus aspicit intus
Investigat eum, cui [illegible] flagrat.
Plorat, et in lacrymas se totam solvit amaras
Sublatum Dominum dum putat esse suum.
Magdalena tuos de lumine comprime fletus
Absterge undantes lumina Sancta genas
Qui potuit virtute sua se reddere Vivum
Nolente rapere quis Violenta manu [illegible]

Lazarus à Morte excitatus

Epigramma

Quatuor ante dies me corruit ignea febris,
Ad finem vitæ me libitina tulit.
Una soror casum mox flevit, at altera amarè
Condidque in Petra triste cadaver humo
Venit ad domum subito prorsus Jesu
Ille tumulo impositum deseruisse diem.
Adfuit, et lacrymas fremitusque è pectore fundens
Ad Patrem mittit prece vota sua.
Et mandans saxum auferri clamat ab umbris
Lazare tu rursus dent monumenta foras
Ignotæ voce [illegible] virtute sentio surgo
Ducit ad vitam Morte abeunte nova
An aliquis stupeat tanti miraculi facti:
Mors parat quando vita, vox quæ iubent. Vt.

De Resurrectione Domini
Poema

Christe renascentis canemus tua stamina Vitae
Heroasque reportasti contrà molimina Ditis
Mortisque invitae laetae celebrare triumphos
Fert animus. Tu Christe mihi meus ipse Redemptor
Da vires. Non lex quas finxit opinio Vatem
Volo Deas, vane quod sunt commenta Poesis
Vos tamen habes tu verus solus et Omen
Numinis. Hinc tribuas vires meus ipse Redemptor
Perfidias solus tuear pro carmine Venas
Indomitos furibunda suas expleverat iras
Perfidis mandibus Stygioque imbuta Veneno
Fecerat ex odio caedem qua territus Aer
Induitur in tenebris, radiosaque lumina Solis
Abscondita latent qua Marmora fracta dehiscunt
Surguntque e tumulis Manes qua motibus a ra
Terra inspiratis tremendae, dubioque pavore
Cineta commenta rigant, volutique columbae volantes

Hunc pressisse iuges per plurima saecula curis
